NOTICE TO ALL CUSTOMERS
Reefer transshipment containers
volume

Valued Customer,

Due to the high volume of reefer transshipment containers **currently in the terminal with a dwell time of +15 days**, this limits the capacity to receive additional transshipment reefer volumes until the units that are stored in our Terminal are evacuated.

We hereby confirm that, as from today 19th May 2025 and for a temporary period, we will require each respective shipping line to check officially with the Terminal planning management team **15 days in advance** (prior loading) of any transshipment reefer container whether it can accommodate or not, in order to avoid the same situation.

Please inform your entire team of the above information, given that the terminal will not be held responsible if you load transshipment reefer containers without fulfilling the above requirements.

We remain at your disposal for any further information.

For more information, kindly contact us:
