NOTICE TO ALL SHIPPING LINES

Quay Upgradation Works

Dear Valued Customer,

We would like to inform you that SGTD Doraleh will be undertaking a major upgradation of the full-quay length infrastructure, as part of our ongoing commitment to enhancing Terminal operations and service quality.

Starting June 18th 2026, at any given time, 25% of the quay length will be temporarily unavailable for vessel operations during each phase of the project due to quay upgrade works. The remaining part of the quay length will be available for berthing/sailing/cargo handling at all times. The overall upgrade program is scheduled for over 18 months.

Throughout the project period, SGTD Doraleh will continue to ensure the efficient and reliable delivery of its services while progressing with these important infrastructure enhancements.

To support effective vessel berthing planning and operational coordination, we kindly request all shipping lines to:

- Submit vessel schedules covering a two-week plan with daily updates as applicable.

We appreciate your continued support as we undertake these important infrastructure enhancements, which will further strengthen the terminal's long-term efficiency and capacity.

We thank you for your cooperation and remain at your disposal if you require any further information or clarification.
