NOTICE TO ALL CUSTOMERS

Integration of DCT Permit Information into the Enhanced VBS Ticket

Dear Valued Customers,

In our continuous endeavor for improvement and to further simplify gate operations, SGTD would like to inform all customers of an upgrade to the Vehicle Booking System (VBS).

With the latest release of the VBS, the information previously contained in the DCT Permit has been fully integrated into the VBS Ticket. Consequently, the VBS Ticket will serve as the principal operational document for all gate transactions, eliminating the need for a separate DCT Permit. Effective from **15th July 2026**, only the following documents will be required for gate processing:

- **SGTD valid Invoice**
- **VBS Ticket**

Accordingly, the DCT Permit will no longer be issued or required for any gate operation. This enhancement is designed to streamline the gate process and reduce documentation requirements. Customers, freight forwarders, transporters, and all other stakeholders are kindly advised to ensure that their teams are informed of this new requirement and comply with the revised gate procedure from the implementation date.

We thank you for your continued trust and cooperation and look forward to serving you with even greater efficiency.
